Final Proposed Action Memorandum; Operable Unit No 1 Hot Spot Removal

Dear Mr Slaten

EPA's Rocky Flats Section received the above referenced document on September 6 1994 although the cover letter for the document is dated September 1 1994 The proposed amendment to Paragraph I B 10 of the Interagency Agreement states EPA and the State will have 7 calendar days to approve or disapprove the or request an additional 7 calendar days

So that there is no confusion regarding the timing of responses from EPA and the State by this letter EPA requests additional time to review and approve or disapprove the PAM Through preliminary discussions with the State both agencies have agreed that a decision regarding this action and any comments or responses applying to it will be submitted to DOE by close of business September 16 1994 A similar letter is also being sent by the State for this purpose

If you have any questions concerning these matters, please contact Gary Kleeman of my staff at 294 1071

Sincerely

Martin Hestmark, Manager Rocky Flats Project
